Data Set Overview and History

The California State Legislature passed the Racial and Identity Profiling Act of 2015 (RIPA), or Assembly Bill (AB) 953, which added Section 12525.5 to the Government Code and amended Sections 13012 and 13519.4 of the Penal Code. The bill (1) amended the definition of unlawful profiling to include both racial and identity profiling, (2) required the Attorney General to establish the Racial and Identity Profiling Advisory Board (Board), (3) requires each state and local agency that employs peace officers to annually report to the Attorney General data on all stop incidents.

AB 953 tasked the Board with eliminating racial and identity profiling and improving diversity and racial and identity sensitivity in law enforcement by investigating and analyzing law enforcement policy and data. Data statutorily required to be collected by peace officers include both person-level (e.g. race/ethnicity) and stop-level (e.g. time of stop) information. Reporting agencies were required to begin collecting stop data in waves. Specifically, each agency that employs 1,000 or more peace officers issued its first round of reports on or before April 1, 2019; agencies that employ 667 or more but less than 1,000 peace officers shall issue its first round of reports on or before April 1, 2020; agencies that employ 334 or more but less than 667 peace officers shall issue its first round of reports on or before April 1, 2022 and, each agency that employs one or more, but less than 334 peace officers, shall issue its first round of reports on or before April 1, 2023.

Users of this dataset should familiarize themselves with the RIPA stop data regulations. The regulations establish what data elements are collected under RIPA and provide examples of circumstances under which peace officers are to select certain data elements. Understanding the stop data regulations will assist users with interpreting their analyses. The regulations can be found at: https://oag.ca.gov/sites/all/files/agweb/pdfs/ripa/stop-data-reg-final-text-110717.pdf.

Statutory Authority

The DOJ has the statutory authority to collect RIPA Stop Data, pursuant to Government Code section 12525.5.

Data Characteristics and Known Limitations

- 1. Demographic information pertaining to individual identity is based on officer perception rather than self-identification, and includes race/ethnicity, gender, age, LGBT identity, English fluency, and disability.
- 2. Agencies collected only six months of data (July 1 to December 31) in 2018, per statute.
- 3. The Stop Data Collection System (SDCS) performs a series of logical checks on the data that agencies submit. If data fails these logic checks (e.g. a record has an age value that is a negative number), the SDCS notifies the respective agency of the error. It is then the agency's responsibility to correct the error and resubmit the record afterwards. In 2018, a relatively small amount of data with errors that should have

been identified and corrected reached completed status. These known errors are listed below:

- a. There are 28,096 cases where officers listed "consensual encounter resulting in search" as the reason for stop and no search was indicated as an action taken by the officer during the stop.
- b. There are 5,403 cases where officers listed "incident to arrest" as the basis for a search and no arrest was indicated.
- c. There are two cases where officers listed "reasonable suspicion" as the reason for stop and did not provide the corresponding reasonable suspicion subcategories.
- d. There are two cases where officers listed "reasonable suspicion" as the reason for stop while also reporting traffic violation types.
- e. There are 62 cases in which the result of stop was not included in the record.
- f. There are two cases where officers reported "no action taken" in addition to other actions.
- g. There is one case where a student-specific action was reported for an individual that was not reported as a student.
- h. There are 62 cases that are missing "actions taken".
- i. There are two cases where officers indicated that the individual was searched but no basis for the search were provided.
- 4. Feedback from law enforcement indicated that some searches or detentions may be related to community caretaking activities. At the time of data collection, there was no option within the collection regulations for officers to select community caretaking as a reason for conducting a stop. California Justice Information Services addressed this concern by adding the offense code (99990) to provide officers with a community caretaking option. Currently, officers must select "reasonable suspicion" as the reason for stop in order to indicate this option. Given the change, some officers may have failed to select the new CJIS offense code to classify stops as community caretaking stops.
